PROFILE

A resilient, adaptable and motivated individual who has completed a Bachelor of science degree from the University of Limpopo. During my degree and vacation work I have developed an excellent eye for detail due to heavy demands of assignments and research. I am looking to secure a graduate or entry level position to further develop my analytical and data acquisition skills in a fast-paced environment, which will provide opportunities for further development and progression.

EXPERIENCE

12/2018 - 01/2019

- **Council Of Scientific and Industrial Research (CSIR)**

Data Science Student (Vacation Work)

- Understanding datasets through interactive visual exploration and model development. (data collection, filtering, analysis, visualization and presentation)

EDUCATION

2013-2018

- **University Of Limpopo**

Bsc Mathematical and Computer Science

2007-2011

- **Calvin Independent School**

National Senior Certificate

SKILLS

- Written and verbal communication skills Data analysis Microsoft office Team player Organizational skills Time management Adaptability

PROJECTS

- **Transport Planning for the municipality**

- Develop a model that predicts the transport mode choice of commuters in a certain municipality. Studying individual's transport mode choice can help with:
- Identifying factors that significantly influence the choice of transport mode by individuals.
- Understanding of how transport mode choice is likely to be distributed amongst the categories of features like gender, level of income, etc .
- To understand the travel behaviours of commuters.
